Berlin -- Moscow: Just in case....

Berlin -- It is reported that Operation Sea Lion is on or ahead of schedule. Many deeds of heroism have also been reported on both sides of the great battles now being waged on the once-peaceful countryside of England.

Vatican City -- The Pope gave his blessing today to the Italian armed forces, who, he said, "came not to France and Iberia as conquerors, but as liberators". His Holiness declared that the people of these lands had strayed from the fold, and that "not even a change of temporal government had brought relief to them".

Vienna -- Let the Czar be assured that coastal forces moving to Budapest represent no aggressive move; they represent merely a defense against possible hostile moves on his side. The Council of Vienna assumes this precaution is unnecessary, or it would have taken stronger measures; but we believe it is better to be safe than to be sorry.

Propaganda --

Umbar -- Die, faithless elf-king, die, die!! Braaaaaak-k-k-k!

Minas Tirith -- His Highness, Prince Shalman ab-Yadtsid, brother of the illustrious

Emperor of Harad, was today crowned King of Gondor and read to His people a rescript  
of the Emperor declaring Gondor to be a Protectorate of the Haradrim. Rumor has it

FKF (Continued) --

that the Lady of Gondor will marry the new King, thus founding the new line of Kings firmly upon the Throne of the White Tree. In related action, the new King signed His first edict, ceding the northern reaches of Gondor, the province of Anorien, to Sauron of Mordor. South Ithilien, Harondor, and other unspecified regions were recognized as parts of the domain of Harad.

Umbar -- Scandal of the Year: The King of the Elves is reading The Thoughts (?) of Conrad von Metzke.

Umbar -- Scandal of the Century: The King of the Elves is a Peerisite!!

Umbar -- Scandal of the Millenium: The King of the Elves is really Eric Blake!!!

From the Pages of the UMBAR TIMES Gossip Column -- "Is it true that the King of Rhovanion sends a consignment of nice, juicy woodmen and other people to Shelob every Mother's Day?"

Same Source -- "Is it true that the Emperor of Harad is teaching Political Science to a bunch of helpless young airmen? How badly will He warp their minds? Can it be that Diplomacy will take second place to scholarship? Horrors! At any rate, we hear from a reliable source that the King of Rhovanion is hoping for the Second Coming of Morgoth."

Propaganda --

Paris -- London: In view of your superiority in fleets in the North of 4-0, we have decided to make it 4-1; you of course need fear nothing from a lone French fleet which will not leave the Continent unless provoked; "good fences make good neighbors".

Paris -- Rome: My F EMe will move for your benefit in a manner you should be able to anticipate. F Ion will move to Adr to assist you in the Fall, so you need not divert your A Bud to recapture Ven and Tri. Because of unexpected developments I am blocked off in the North; would you consider ceding Mun or Ber to me? I will not attempt them unless you approve.

St. Petersburg -- I'm still in the game, people, and have every intention of fighting it out until the end. Right now, I'm wondering just how long the Franco-Italian alliance is going to last. I'm no longer the threat to them that I once was; I'm on the defensive now. I'm certainly open to any offers....

DAA (Continued) --

St. Petersburg -- Turkey: I'm sorry. You would have been able to get a build if I had been able to help you. You're fighting most courageously. I hope you will be in the game until the end. I'll try to help if I can.

Deadline for SPRING, 1909 moves & propaganda -- Noon, Wed., Oct. 16.

DCA (Game of Anonymity #2) -- GUNS ARE SILENT BUT PROPAGANDA MILLS ARE NOT, AS WAR REACHES MIDWAY POINT IN ITS SEVENTH YEAR!

SUMMER, 1907 retreat -- ENG: A Lvn (R) Pru.

Propaganda --

London -- Paris: Our forces took a rest this spring. Now we're ready to resume the fight. I would request that you support my fleet Mid-Atlantic to Portugal. I could, of course, support your army there, but I would like to get a build this turn. I need some armics to fight in Scandinavia, and I don't seem to be able to pick up any other supply centers. Also, this would get that fleet out of any potential attacks on any of your supply centers. ##### This fall, I'm stationing a fleet in the North Sea for convoy duty to the Continent. So don't be alarmed by that. In fact, I would pledge at this point not to build any more fleets. I promise to keep my naval strength as it is. You could reciprocate by leaving the army in Brest.

Moscow -- Paris: Our quarrel is not with you, so please don't start one.

Moscow -- London: Keep it up, those are the kind of moves we like to see! Seriously though, the people are getting restless to see their fair capital again, and it might be impossible to stop them from doing so.

Moscow -- Rome: If you ask for it, Rumania will attack Galicia, thus cutting its support into Vienna, and your army Venice could also cut support.

Deadline for FALL, 1907 moves & propaganda -- Noon, Wed., Oct. 16.

DGA (Game of Anonymity #3) -- FLOW OF BLOOD SLOWS IN EUROPEAN WAR, BUT FLOW OF WORDS CONTINUES!

The Players -- Replacement still needed to see AUSTRIA-HUNGARY through its last rites. If interested, send F'06 moves to GM NLT Wed., Oct. 16.

SUMMER, 1906 Propaganda --

France -- Germany: Will support A Ruhr to Munich with Burgundy, then move back to Picardy for possible convoy to England.

France -- Italy: Will support F Adriatic to Trieste. Please support A Tyrolia.

Italy -- France: If you would support A Venice to Trieste we could break the Russian stranglehold on the Balkans. After you're finished with England you could destroy him in the north.

Rome -- Berlin: Your armics are going in the right direction; they're sure to be rewarded.

Deadline for FALL, 1906 moves & propaganda -- Noon, Wed., Oct. 16.

Paris -- England: It is impolite, to say the least, to bargain over my supply centers without consulting me. Remember, if we don't hang together, Russia will hang us separately. Now, with a Winter balance of \$301 I can keep going forever on investments alone. Does anyone want to take the time and expense of annihilating me? Further, the surplus goes to my lucky ally. My other vassals, in Rome, Paris, and Berlin, have willingly placed most of their homelands under my protection, and thanks to my services; they will soon be able to withdraw from the war which is ravaging Europe.

London -- A high-level Soviet official arrived here today, to seek advice from the English Prime Minister.
